APRIL LUNCHEON (Please make your reservation as soon as possible as a big turnout is expected.)

Pinehurst Members Club - **Monday, April 4, 2011** Valet Parking Available

Registration: 11:30 - Luncheon 12:00

Chicken Breast Monterey

Garlic and Rosemary Roasted Red Bliss Potatoes

Green Beans Sauteed with Bacon and Caramelized Onions

Black Forest Cake

\$ 16.00 Inclusive

Checks payable to Pinehurst LLC

To make a reservation, please email Kay Wildt at mkgw824@gmail.com

or telephone at 235-4654 **no later than Wednesday, March 30, 2011**

Cancellations: By April 2, 2011. *(MRW policy is that payment must be made for any cancellation after 12:00 noon on the Saturday preceding the luncheon.*

For cancellations after Saturday, April 2, 2011 only: Send your check for \$16.00 payable to MRW to Gina Brown, 1855 N. May St., Southern Pines 28387)

April Program

Dr. C. L. Gray

Physicians for Reform

Physicians for Reform is a non-profit, non-partisan, advocacy group founded by Dr. C. L. Gray, designed to organize physicians, patients, and the business community in an effort to shape the nation's healthcare debate. It seeks to keep the patient's welfare the central focus of medicine, not the fluctuating interests of government. Working together, it will be possible to recapture the heart of medicine and secure a political platform to reform American healthcare.

PRESIDENT'S MESSAGE:

Perhaps we should urge OUR State Legislators to adopt this policy. As taken from "The Ozarks Sentinel" an editorial by Nita Jane Ayres.

"Missouri has no illegals: go figure...won't be too difficult..."

"Missouri's approach to the problem of illegal immigration appears to be more advanced, sophisticated, strict and effective than anything to date in Arizona.

Do the loonies in San Francisco, or the White House, appreciate what Missouri has done? When are our fearless President and his dynamic Attorney General going to take action to require Missouri start accepting illegal immigrants once again? So, why doesn't Missouri receive attention?

Answer: There are no illegal Mexicans in Missouri to demonstrate. The "Show Me" state has once again shown us how it should be done. There needs to be more publicity and exposure regarding what Missouri has done. Let's pass it around.

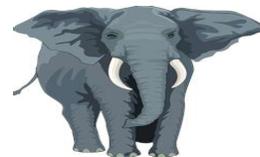

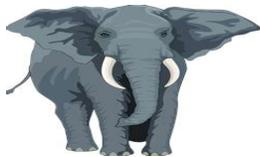

In 2007, Missouri placed on the ballot a proposed constitutional amendment designating English as the official language of Missouri. In November, 2008, nearly 90% voted in favor! Thus, English became the official language for ALL governmental activity in Missouri. No individual has the right to demand government services in a language OTHER than English. In 2008, a measure passed that required the Missouri Highway Patrol and other law enforcement officials to verify the immigration status of any person arrested, and inform federal authorities if the person is found to be in Missouri illegally. Missouri law enforcement officers receive specific training with respect to enforcement of federal immigration laws.

In Missouri, illegal immigrants do NOT have access to taxpayers' benefits such as food stamps and health care through Missouri HealthNET. In 2009, a measure was passed that ensures Missouri's public institutions of higher education do NOT award financial aid to individuals who are illegally in the United States.

In Missouri, all post-secondary institutions of higher education are required to annually certify to the Missouri Dept. of Higher Education that they have NOT knowingly awarded financial aid to students who are unlawfully present in the United States.

So, while Arizona has made national news for its new law, it is important to remember, Missouri has been far more proactive in addressing this horrific problem. Missouri has made it clear that illegal immigrants are NOT welcome in the state and they will certainly NOT receive public benefits at the expense of Missouri taxpayers."

LET'S TAKE AN AX TO THE FEDERAL BUDGET

In good economic times, well run companies make wise investments; in a weak or uncertain economy, they pull back and look for ways to eliminate unnecessary spending. As individuals, we do likewise and should expect our government to follow suit. At this crucial time for our economy and our future, I offer the following suggestions to trim our expenses and return to reasonable fiscal policies.

1. Reduce (or eliminate) foreign aid. Most is not closely monitored and winds up in the pockets of corrupt leaders. Very little reaches the people we are trying to help.
2. Eliminate the U.S. Department of Education – an additional layer of bureaucracy does nothing to educate students. Locally elected school boards are closer to their communities and know local needs.
3. Eliminate all earmarks – we don't need any more Teapot Museums or Internet Dating Studies.
4. No more funding for National Public Radio or the Public Broadcasting System. They should be able to go it on their own.
5. No more funding for Planned Parenthood; County Health Departments offer a full range of services for residents on a sliding scale.
6. Look carefully at ALL job training programs. Our neighbors in Cumberland County made some wasteful expenditures, prepared no clients for jobs, and I'm sure they're not alone.
7. Get tough on illegal immigration! Take a look at Mexico's policy and try to explain why we are so lax. Call out the National Guard if needed; our resources are being drained by people who have not followed the rules. Those who have followed the immigration rules and waited for years for the opportunity to come to the U.S. should be mad as heck.
8. Slash middle management in government bureaucracies as many successful private companies have done.
9. No more funding for National Public Radio or the Public Broadcasting System. They should be able to go it on their own.
10. No more funding for Planned Parenthood; County Health Departments offer a full range of services for residents on a sliding scale.
11. Look carefully at ALL job training programs. Our neighbors in Cumberland County made some wasteful expenditures, prepared no clients for jobs, and I'm sure they're not alone.
12. Get tough on illegal immigration! Take a look at Mexico's policy and try to explain why we are so lax. Call out the National Guard if needed; our resources are being drained by people who have not followed the rules. Those who have followed the immigration rules and waited for years for the opportunity to come to the U.S. should be mad as heck.
13. Slash middle management in government bureaucracies as many successful private companies have done.
14. corrupt leaders. Very little reaches the people we are trying to help.
15. Eliminate the U.S. Department of Education – an additional layer of bureaucracy does nothing to educate students. Locally elected school boards are closer to their communities and know local needs.
16. Eliminate all earmarks – we don't need any more Teapot Museums or Internet Dating Studies.
17. No more funding for National Public Radio or the Public Broadcasting System. They should be able to reduce (or eliminate) foreign aid. Most is not closely monitored and winds up in the pockets of go it on their own.
18. No more funding for Planned Parenthood; County Health Departments offer a full range of services for residents on a sliding scale.
19. Look carefully at ALL job training programs. Our neighbors in Cumberland County made some wasteful expenditures, prepared no clients for jobs, and I'm sure they're not alone.
20. Get tough on illegal immigration! Take a look at Mexico's policy and try to explain why we are so lax. Call out the National Guard if needed; our resources are being drained by people who have not followed the rules. Those who have followed the immigration rules and waited for years for the opportunity to come to the U.S. should be mad as heck.
21. Slash middle management in government bureaucracies as many successful private companies have done.

With conservative Republicans in charge, there will be many on-going battles like the one playing out in Minnesota. Our Federal and State legislators will need our support and encouragement. Let's make sure they know where we stand!

NEW BUSINESS: . Why didn't the U.S. Government think of this??? A friend of mine just started his own business in Afghanistan. He's making land mines that look like prayer mats. It's doing well. He says prophets are going through the roof.

THIS IS THE PRESIDENT OF THE UNITED STATES OF AMERICA

From Dreams of My Father : "I found a solace in nursing a pervasive sense of grievance and animosity against my mother's race." "There was something about her that made me wary, a little too sure of herself, maybe and white." "It remained necessary to prove which side you were on, to show your loyalty to the black masses, to strike out and name names." "I never emulate white men and brown men whose fates didn't speak to my own. It was into my father's image, the black man, son of Africa, that I'd packed all the attributes I sought in myself: the attributes of Martin and Malcolm, DuBois and Mandela." ***From Audacity of Hope***: "I will stand with the Muslims should the political winds shift in an ugly direction."

Why is it that every time I press one for English I still can't understand the person on the other end.

BOARD NEWS: MRW received RISE award this year (recruit, involvement, service education). May luncheon speaker will be Joyce Krawiec - activist-grass roots for NCFRW. Changed terms of office for executive committee to 2 years. Nominating committee of 5 members: 2 from executive board with three from membership.

Run, Democrats, Run by Dr. Milton R. Wolf (a *Washington Times* columnist, board-certified diagnostic radiologist and President Obama's cousin. He blogs at miltonwolf.com)

Democrats are the Forrest Gump of American politics. They've taken to heart the advice Jenny gave him right before he deployed to war: "Just, if you're every in trouble, don't try to be brave, you just run, OK? Just run away." And run they have.

There's hardly a politician in the world who hasn't promised they'd fight for you but the basic fight-or-flight response has unmasked today's Democrats' indefensible defense of big government. Wisconsin state Senate Democrats cowering under their beds in an Illinois no-tell motel put 1,500 state workers at risk of layoffs and only delayed the inevitable and necessary budget cuts that Wisconsin, like the rest of America, must face.

I must confess, however, that I do have sympathy for our frightened Democrats. They're simply on the wrong side of history. They're trying to defend the indefensible and the cadre of anti-free-market, big-government, central-control holdouts is dwindling down to the ailing Kim Jong, the Castro brothers and the American Democrats. Their claim is laughable - that free enterprise doesn't create prosperity.

The free market is the most powerful engine of human prosperity in the history of mankind and today's Democrats stand desperately in its way to appease those who are enriched by big government at the expense of everyone else. It's not by coincidence that the most prosperous and powerful nation the world has every known grew out of the cradle of democracy. Freedom, after all, is the cadre of the free market. It's the freedom for you to control your own resources and with them, your destiny. It's the understanding of a simple concept that you can spend your own dollars more effectively than the government can spend them for you. After all, free consumers don't buy \$600 hammers or build bridges to nowhere - politicians do.

Freedom is on the march. The 20th century witness the spectacular but predictable implosion of the world's largest centrally-planned economy in the Soviet Union. A few years earlier and equally as dramatic was the crumbling of the Berlin Wall. Both were fueled not by ideology but practicality. Dictators became powerless in the face of parents who simply wanted to feed their families and teenagers who wanted buy and wear Levi 501s.

American Democrats are in defiance of history and common sense. As Canadian and British patients flee government-run socialized health care, Democrats rush to implement Obamacare. As once-impooverished nations become wealthy by manufacturing goods for Americans, Democrats and their union allies are aiding them by raising manufacturing costs here at home. As Asian auto companies make cars people actually want, President Obama nationalized car companies and is now bribing you with your own money to buy an electric clunker nobody wants. As our competitors understand the elegantly simple yet profoundly powerful concept of supply and demand, Mr. Obama implements an oil-drilling moratorium and rushes toward \$5 per gallon gasoline. As our competitors are recognize the inescapable reality that increased government spending and taxes mean fewer resources available for the private enterprises that drive prosperity, Mr. Obama unveils a \$3.7 trillion budget and calls for more taxes.

Such is the plight of the big-government types who hopelessly think every problem calls for yet more government. When you're a hammer, everything looks like a nail. Defending the indefensible is tough work and the only thing as laughable as the cowardly flight are the ridiculous contortions of those Democrats who stick around to defend big government.

Unless the Democrats can eventually come to understand and embrace the free market, we will see plenty more of their desperate fight-or-flight responses. Their allegiance to big government may compel them to scatter like frightened French soldiers or plan panty raids on your bank account. Either way, Forrest Gump's mom was right: "Stupid is as stupid does."

BILL CLINTON: Offshore Drilling Delays 'Ridiculous'Newsmax Friday 11 March 2011

Delays in offshore oil and gas drilling permits are “ridiculous” at a time when the economy is still rebuilding, former President Bill Clinton told attendees Friday at the IHS CERAWeek conference. Clinton spoke on a panel with former President George W. Bush that was closed to the media, [Politico](#) reported. There also was no video of the event.

Still, there were several attendees who confirmed to Politico that Clinton agreed with Bush on many oil and gas issues, including criticism of delays in permitting offshore since last year’s Gulf of Mexico spill.

“Bush said all the things you’d expect him to say” on oil and gas issues, said Jim Noe, senior vice president at Hercules Offshore and executive director of the pro-drilling Shallow Water Energy Security Coalition. But Clinton added, “You’d be surprised to know that I agree with all that,” according to Noe and others attending the conference who talked to Politico.

Clinton said there are “ridiculous delays in permitting when our economy doesn’t need it,” according to Noe and others.

Both Clinton and Bush agreed on the need to get offshore drilling workers back on the job. They also agreed on the need for more domestic shale gas production, with Clinton noting that it has been done safely for years in his home state of Arkansas.

Alert.....More Walmartians Spotted
